The University of Arizona department of systems and industrial engineering was established in 1961 as the nation's first academic department of systems engineering. Wed, 23 May 2018 16:27:00 GMT Welcome! | Department of Systems and Industrial Engineering - Industrial engineering is a branch of engineering which deals with the optimization of complex processes, systems, or organizations. Industrial engineers work to eliminate waste of time, money, materials, person-hours, machine time, energy and other resources that do not generate value. Sun, 20 May 2018 21:39:00 GMT Industrial engineering - Wikipedia - Industrial ecology is concerned with the shifting of industrial process from linear (open loop) systems, in which resource and capital investments move through the system to become waste, to a closed loop system where wastes can become inputs for new processes.
